based on events surrounding the infamous billion dollar bre x gold fraud and the determined few who recklessly destroyed so

many lives with their all consuming quest for gold in kalimantan indonesian borneo when canadian miner borneo gold corporation announces the discovery of gold reserves in excess of twenty million ounces pundits drive the worthless stock to giddy heights as the rich and powerful in three countries move to secure control over the deposit dayak tribes are forced off traditional lands precipitating ethnic blood feuds and a return to headhunting practices as exploration practices destroy pristine forests and pollute the environment indonesian gold brings a depth of description and colour to the archipelago s ethnic tribes as they resist the flood of moslem migrants from the poorer indonesian islands and reveals the extent of devastation visited upon indigenous peoples by multinational mining companies

this volume explores the history and historiography of madness from the ancient and medieval worlds to the present day covering africa asia and south america as well as europe and north america chapters discuss broad topics such as the representation of madness in literature and the visual arts the material culture of madness madness within life histories and the increased globalization of knowledge and treatment practices chronologically and geographically wide ranging and providing a fascinating overview of the current state of the field this is essential reading for all students of the history of madness mental health psychiatry and medicine

for the first time pediatric clinics is devoting one issue to two clinically focused topics pediatric palliative care and pediatric hospital medicine dr ottolini has organized her section to focus on a variety of issues of relevant to all pediatricians but which pose special challenge to the pediatric hospitalists as pediatric care has advanced children who would not have survived infancy are growing into young adults with complex chronic diseases and dependence upon technology they frequently require hospitalization to address exacerbation of underlying disease processes and procedures to improve their quality of life the articles are devoted to patient care challenges of troubleshooting malfunctioning technology co managing medically complex patients pre and post op with surgical colleagues and the hospitalist s evolving role in performing procedures and sedation in this population of vulnerable patients also discussed rare strategies to maximize communication with parents patients and primary care providers during hospitalization especially for medically complex patients dr ullrich and dr wolfe

pediatric have worked to bring relevant articles on palliative care to the pediatrician while life threatening conditions in childhood are rare children with ltc account for a high proportion of pediatric hospital care and about one half of such children die in the inpatient setting the number of hospital based pediatric palliative care programs has increased dramatically over the past decade to meet the palliative care needs of hospitalized children including symptom management facilitation of communication decision making and advance care planning support and coordination of care given these considerations it is evident that the topics of pediatric palliative care and hospital medicine are fitting counterparts for this comprehensive issue

t his book provides valuable information on taking care of children with complex mental health challenges chapters present information in tabular format which makes the book easy to use in practice the case vignettes are practical and helpful in understanding a child as a unique case and not just a diagnosis the list of the most valid and reliable screening and assessment tools is valuable as is the information on useful websites the book also clearly provides up to date basic information on neurobiology and genetics as well as ongoing research in the field doody s medical reviews mental health practitioners who work with children are often confronted with complex difficult to treat mental health issues that do not respond to conventional methods of psychotherapy these children have a web of multiple impairments that are comprised not just of emotional and behavioral issues but also learning and other cognitive disorders children with multiple mental health challenges presents an innovative evidence based approach to understanding and treating this difficult population that integrates the child s development and functioning into diagnosis and treatment it does not rely on diagnostic categories alone but explores the functioning of children in several dimensions of development and considers multiple levels of influence the book builds on an individualized integrated approach to present a variety of evidence based strategies for working with children with multiple challenges it considers children from preschool age to adolescence with a number of severe difficulties these may include extreme aggression oppositional defiant behavior significant anxiety and depression cognitive and academic challenges delays in speech and language problems with attention and concentration sensory integration problems and unresolved trauma the treatment strategies included can be used by various specialists within the intervention team as well as by parents and teachers key features presents an innovative approach to working with children with multiple disorders
