in this collection of essays presented at a scholarly symposium held in 1982 in tubingen germany new testament exegetes and church historians from several countries uncover lines of convergence in the study of the historical sources and traditions behind the four canonical gospels

this textbook on how to read the gospels well can stand on its own as a guide to reading this new testament genre as scripture it is also ideally suited to serve as a supplemental text to more conventional textbooks that discuss each

gospel systematically most textbooks tend to introduce students to historical critical concerns but may be less adequate for showing how the gospel narratives read as scripture within the canonical framework of the entire new testament and the whole bible yield material for theological reflection and moral edification pennington neither dismisses nor duplicates the results of current historical critical work on the gospels as historical sources rather he offers critically aware and hermeneutically intelligent instruction in reading the gospels in order to hear their witness to christ in a way that supports christian application and proclamation

the discussion initiated by the gospels for all christians rethinking the gospel audiences edited by richard bauckham has had a profound effect on gospel study and has been probed and debated at major conferences as well as at an international conference on the gospel of john 2002 almost every commentary or major monograph on the gospels has had to deal with its thesis in light of this ongoing debate stretching nearly a decade it seems that a further volume is sorely needed even more there is now a pressing need for further definition and clarification of the concepts and ideas that were originally presented as well as a more precise dialogue over these hotly debated issues in gospel interpretation with scholars who have been participating in the discussion since its inception this multi contributor volume will press forward an important discussion centered upon the audience of the gospels continuing further the quest for understanding the origin and function of the gospels in early christianity

the gospels and christian life reads the four canonical gospels as handbooks for religious formation through communal practices the book focuses on the communities that produced each gospel the dynamic energy each gospel displays for creating and sustaining community life the different interpretations of the person of jesus and the different systems of organization and leadership each gospel promulgated the authors carefully describe the social context of each gospel and delineate the practices the texts prescribe each gospel has an imaginative portal an introductory chapter introducing the necessary background for understanding the social intellectual and religious setting for each gospel their reading of each gospel builds on these foundations to illustrate the nature and scope of the community's practices their work starts from the assumption that the communities did not look to the gospels for biographical data on the life of jesus to offer the reader a powerful reading of each gospel community its unique

practices and the way people were trained to become members of it this book is aimed at undergraduate and graduate teachers and students pastors and the general audience eager for new ways to understand the new testament

a robust scholarly defense of the distinctiveness of the canonical gospels do the four new testament gospels share some essence that distinguishes them from noncanonical early gospels the tendency among biblical scholars of late has been to declare the answer to this question no that matthew mark luke and john were grouped together by happenstance and are defended as canonical today despite there being no essential commonalities between them simon gathercole challenges this prevailing view and argues that in fact the theological content of the new testament gospels distinguishes them substantially from noncanonical gospels gathercole shows how the gospels of matthew mark luke and john each include four key points that also formed the core of early christian preaching and teaching jesus s identity as messiah the saving death of jesus the resurrection of jesus and scripture s foretelling of the christ event in contrast most noncanonical gospels like the gospel of thomas the gospel of truth and marcion s gospel only selectively appropriated these central concerns of early christian proclamation

this collection of freshly translated texts leads to a new appreciation of the richness and variety of the religious world within which christianity emerged as a powerful new force bringing together for the first time under a single cover documents from jewish greek roman egyptian syrian and little known early christian sources the material is arranged to bring out as clearly as possible the ways in which early christian worship of jesus christ as savior and god both echoed contemporary worship of other savior gods and at the same time stood in sharp contrast to such worship this

revised and enlarged edition contains a new introduction on texts and traditions in late antiquity a reworked translation of the gospel of peter selections from ovid s metamorphoses plus such documents as papyrus egerton 2 oxyrhynchus papyrus 840 and the apocryphon of james in addition the table of contents has been expanded to allow easier access to the documents contained herein

book i the treatise opens with a short statement on the subject of the authority of the evangelists their number their order and the different plans of their narratives augustine then prepares for the discussion of the questions relating to their harmony by joining issue in this book with those who raise a difficulty in the circumstance that christ has left no writing of his own or who falsely allege that certain books were composed by him on the arts of magic he also meets the objections of those who in opposition to the evangelical teaching assert that the disciples of christ at once ascribe more to their master than he really was when they affirmed that he was god and inculcated what they had not been instructed in by him when they interdicted the worship of the gods against these antagonists he vindicates the teaching of the apostles by appealing to the utterances of the prophets and by showing that the god of israel was to be the sole object of worship who also although he was the only deity to whom acceptance was denied in former times by the romans and that for the very reason that he prohibited them from worshipping other gods along with himself has now in the end made the empire of rome subject to his name and among all nations has broken their idols in pieces through the preaching of the gospel as he had promised by his prophets that the event should be book ii in this book augustine undertakes an orderly examination of the gospel according to matthew on to the narrative of the supper and institutes a comparison between it and the other gospels by mark luke and john with the view of demonstrating a complete harmony between the four evangelists throughout all these sections book iii

this book offers an ideal introduction to the gospels and explains why it is that scholars and lay people have such different understandings of the person of jesus the first half of the book looks at the main sources for the life of jesus principally the gospels of matthew mark luke and john but also the so called apocryphal gospels the second half of the book begins with an examination of the criteria employed by scholars to determine the earliest and most reliable forms of the tradition the third edition interacts with developments in modern scholarship particularly the advance of
